Environmental
Association of
Florida, Inc.

Did you know that DERM's Pollution Prevention Program provides free technical assistance to local companies working to minimize the volume and toxicity of chemicals used and the wastes generated? This year we are focusing on solvent reductions. For more information about this service or about future events, please contact the Pollution Prevention Program at (305) 372-6784 and visit our website online at www.miamidade.gov/derm.
